# If Constructions

- Useful where there are one or more possible conditions.
- Single line If
  - If *condition* then
  - statement*
  - End if
- If-then-Else-End If
  - If *condition* then
  - Statements1*
  - Else
  - Statements2*
  - End If
    - Else is optional
- Operandos de Comparación:
  - Mayor que: >
  - Menor que: <
  - Mayor o igual que: >=
  - Menor o igual que: <=
  - Igual que: =
  - No es igual que: <>

# If Constructions

- Nested If statements

```
If cond1 Then
    If cond2 Then
        statement1
    Else
        statement2
    End If
Else
    Statement3
End If
```

- If-then-Else-Else-End If

```
If condition1 Then
    Statement1
Elseif condition2 Then
    Statement2
Else
    OtherStatements
EndIf
```

# Compound Conditions (and, or)

- Use the keywords And, Or
- Group the conditions in parenthesis to eliminate ambiguity

If condition1 And (condition2 Or condition3) Then

- True if condition1 and at least one of condition 2 and condition 3 is true.

If Color = "red" Or "blue" Then

- Generates an error message

If Color = "red" Or Color = "blue" Then

# Case Constructions

- Less complex than an If construction with multiple Else If lines.

```
Select Case Variable
  Case Value1
    Statements1
  Case Value2
    Statements2
  ...
  Case Else
    Other Statements
End Select
```

```
Select Case ProductIndex
  Case Is <= 3
    UnitPrice = 1.2*UnitCost
  Case 4 to 6
    UnitPrice = 1.3*UnitCost
  Case 7
    UnitPrice = 1.4*UnitCost
  Case Else
    UnitPrice = 1.1*UnitCost
End Select
```
